## Presentation(s)

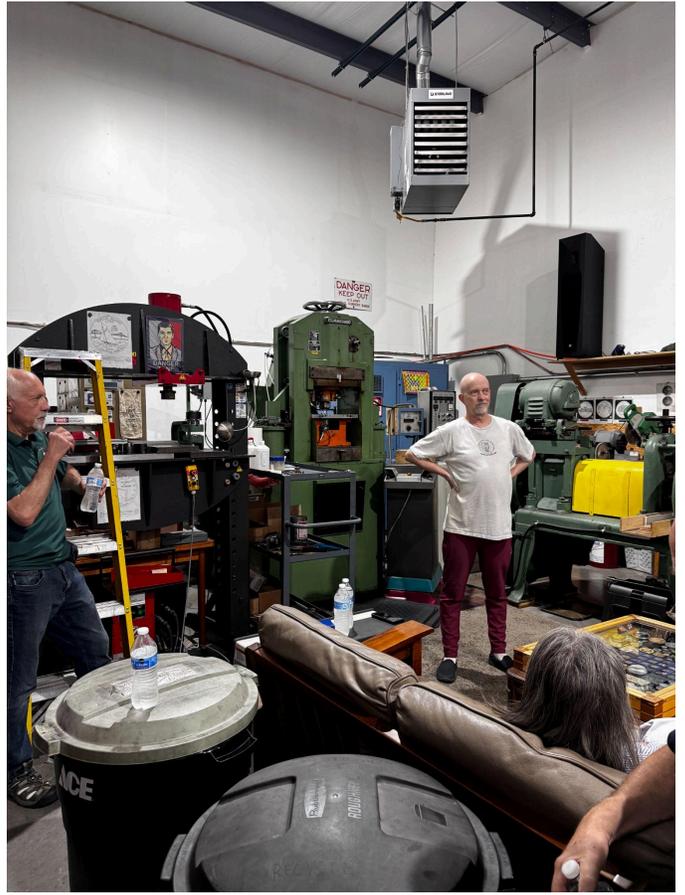

For the July meeting, club members were invited to the Moonlight Mint in Loveland for a striking party. Daniel Carr, the owner of the Moonlight mint, graciously hosted club members and allowed them to

overstrike coins on his coin press. Members brought in large coins (silver dollars, silver eagles, ike dollars, copper rounds, etc) for overstriking using dies from Daniel's design for the FRCC 30th anniversary medals.

Before the coin striking, Daniel described the process for making dies and blanks for the coins and medals that he produces. Interestingly, Daniel also has to do his own troubleshooting and maintenance on his minting equipment. He described some recent issues he had to resolve by using common sense and hard work to get the Gräbener press to work properly.

Club members lined up to get their coins overstrapped over the next two hours. Daniel allowed people who had not been to the mint before to actually push the buttons to operate the press under his supervision. With up to 100+ tons of force on coins being stamped, it is very important to keep fingers away. Hence, two buttons have to be pressed simultaneously to operate the machine.

Pizza and refreshments were provided.
